¹ Majestic Blue's intense ultramarine hue is difficult to recreate accurately in print due to the fact that the CMYK color spectrum is used in the printing process.

In order to get a truer impression of its color, please use RGB digital pictures or, ideally, ask for actual samples.

² Effects in the standard assortment are only available for 6868 as partly coated.

Classic Colors/Effects: This color range offers a wide choice of traditional Swarovski crystal colors and effects.

Exclusive Colors/Effects This color range is offered exclusively by Swarovski.

Colors and effects can appear different when illuminated with different light sources. Swarovski uses standard light source D50 for color decision and comparison. Slight changes in shades are unavoidable. Colors may vary according to cut and foiling.

The composition of Advanced Crystal is compliant with regulatory industry norms and laws regarding the restriction or prohibition of certain substances in the most relevant segments of our customers. Please note that the compliance of the crystal colors Citrine, Fireopal, Hyacinth, Light Siam, Siam, and Yellow Opal varies according to certain industry regulations. Those regulations are indicated with * in the compliance overview. Indian Siam and Scarlet (option to Lt. Siam) conform to all CLEAR-lists.
